Term 4 Curriculum News

At C.P.S.S. we **Read to Achieve!** Remember to read every night.

English

Examining persuasion in advertisements and product packaging

In this unit students will identify and interpret the persuasive language features and visual elements of a product's packaging. They will examine persuasive language features and devices on a cereal package. Students will examine the visual elements on a cereal package and analyse the effectiveness of a cereal package.

At home...

- * Locate product packaging and see how many persuasive techniques you can find.
- * Express your opinion about a topic and give reasons that justify your point of view.

Mathematics

* Data Representation and Interpretation

Students will write questions to collect data, collect and record data, display and interpret data.

* Money

Students will calculate change to the nearest five cents, solve problems involving purchases.

* Fractions and Decimals

Students will identify equivalent fractions, locate fractions on a number line, read and write decimals, compare and order decimals (to hundredths).

* Time

Students will use appropriate language to communicate times, compare time durations and use instruments to accurately measure lengths.

At home...

- * Collect data using your recycling items at home.
- * Practise division and multiplication facts.
- * Calculate a takeaway order and work out the change.
- * Halve or double a recipe.
- * Time how long it takes you to read, or make your bed.

Science

Ready, set, grow!

In this unit students will understand how relationships of living things impact on their life cycle. They will describe situations when science is used to understand the effect of actions, and organise and communicate their findings.

At home...

- * Identify living and non-living things.
- * Research a living thing, and draw its lifecycle.
- * What action can you take to look after living things?

Digital Technologies

Students will explore and manipulate different types of data and transform data into information. They will create a digital solution that presents data as meaningful information to address a school or community issue (such as how lunch waste can be reduced).

At home...

- * Transform your collected data from maths to Excel and create a graph to present your information.

Health & P.E.

Health

Students examine and interpret health information about cyber safety, cyberbullying and online protocols. They describe and apply strategies that can be used in online situations that make them feel uncomfortable or unsafe. They explore the importance of demonstrating respect and empathy in online relationships.

Physical Education

Students perform the refined fundamental movement skills of throwing, catching and balancing and apply movement concepts to solve movement challenges.

Music

'Musical Characters and Action'

In this unit, students compose and respond to music by exploring the ways that characters from film, television and media are portrayed musically. This includes theme songs, sound effects and soundscapes that represent characters from television, film and media.
